#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on \_\_\_\_.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Upon initial review of the claims it appears that claims 1-83 differ in subject matter and therefore require a different search. In accordance with this a restriction is deemed proper.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14 and 63-65, drawn to context sensitive help, classified in class 715, subclass 708.
  - II. Claims 15-22 and 51-56, drawn to a topology, classified in class 715, subclass 734.
  - III. Claims 23-39, drawn to a mark up language interface, classified in class 715, subclass 760.
  - IV. Claims 40-50, 57-59 and 60-62, drawn to a GUI builder, classified in class 715, subclass 762.
  - V. Claims 66-68 and 73-75, drawn to environment customization based on stored profile, classified in class 715, subclass 745.
  - VI. Claims 69-72, drawn to real time data, classified in class 715, subclass 756.
  - VII. Claims 76-83, drawn to, drawn to end user based preference setting, classified in class 715, subclass 747.

Art Unit: 2174

3. Inventions Groups I, II, III, IV, V, VI and VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, each has a separate, stand alone utility: Group I provides assistance, the assistance determined by current conditions; Group II permits a user to perceive the distribution of the components making up an arrangement of interconnected systems as a tree view; Group III implements the components of an interactive environment using a document-based protocol; Group IV modifies a data file via the UI; Group V automatically establishes an environment using previously developed memory contents; Group VI immediately displays distributed data; and, Group VII accesses and controls particulars of the interactive environment under user specifications.

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Art Unit: 2174

4. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Edward Kmett on 6/25/07 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

*Inquires*

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lê Nguyen whose telephone number is **(571) 272-4068**. The examiner can normally be reached on Monday - Friday from 7:00 am to 3:30 pm (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid, can be reached at (571) 272-4063.
